INDEPENDENT AUDITOR'S REPORT

The Board of Directors of
Nashville Rescue Mission and Affiliates
Nashville, Tennessee

We have audited the accompanying consolidated financial statements of Nashville Rescue Mission (a non-profit organization) and Affiliates, which comprise the consolidated statements of financial position as of September 30, 2016 and 2015, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Nashville Rescue Mission and Affiliates as of September 30, 2016 and 2015, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NASHVILLE RESCUE MISSION AND AFFILIATES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2016 and 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nashville Rescue Mission (the “Mission”) was incorporated March 16, 1954 in accordance with the laws of the State of Tennessee as a non-profit corporation. The Mission’s purpose is to seek to help the hurting of Middle Tennessee by offering food, clothing, and shelter to the homeless and recovery programs to those enslaved in life-degrading problems. The Mission’s goal is to help people know the saving grace of Jesus, gain wisdom for living, find fulfillment in life and become a positive part of their community.

Effective October 1, 2011, the Mission revised its organizational structure whereby NRM Holdings, Inc. (“Holdings”), established in August 2010, became the sole owner of the Mission and a newly formed “series” limited liability company, NRM Properties, LLC (“NRM Properties”). Each parcel of land owned by the Mission was transferred to a separate series within NRM Properties. All furniture, equipment, and other personal property owned by the Mission, with the exception of automobiles and other motor vehicles, was conveyed to a separate series of NRM Properties. The Mission entered into leases of the real and personal property owned by NRM Properties for the purpose of using said property for the conduct of the business and ministry of the Mission. The Mission remains the principal operating entity for conducting the day-to-day business affairs and ministry of the Mission and Holdings. Board designated funds of the Mission, including the working capital reserve and capital asset reserve, were transferred to Holdings and were held and maintained by Holdings under the same conditions and restrictions as currently exist with respect to the Mission.

Effective January 1, 2012, the principal operating entity was reorganized from a non-profit corporation (since 1954) to a non-profit limited liability company and its name was changed to Nashville Rescue Mission Ministries, LLC. In addition, the name of Holdings was changed to Nashville Rescue Mission effective January 1, 2012.

The following program services are provided by the Mission in Nashville, Tennessee:

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation

The Mission presents its consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. The Mission reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. In addition, the Mission is required to present a consolidated statement of cash flows. Net assets of the Mission are presented as follows:

Unrestricted net assets –

Undesignated – net assets that are not subject to donor-imposed stipulations or designated by the Mission’s board.

Designated – net assets designated by the Mission’s board for particular purposes, presently designated by the board for future working capital reserves (\$2,520,000) and future capital asset reserves (\$474,000).

Temporarily restricted net assets – net assets subject to donor-imposed stipulations that may or will be met either by actions of the Mission and/or the passage of time. When a restriction expires or is met, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of activities as net assets released from restrictions.

Permanently restricted net assets – net assets subject to donor-imposed stipulations that require that the assets be maintained permanently by the Mission. Generally, the donors of these assets permit the Mission to use all or part of the income earned on related investments for general or specific purposes.

Cash and Cash Equivalents

Cash and cash equivalents include all highly liquid investments, such as money market funds and other investments, that have a maturity of three months or less at the time of purchase.

Land, Buildings and Equipment

Land, buildings and equipment are recorded at cost. Expenditures for ordinary maintenance and repairs are charged to operations. Renewals and betterments that materially extend the life of the asset are capitalized. Depreciation is provided in amounts necessary to allocate the cost of the various classes of assets over their estimated useful lives using the straight-line method. Estimated useful lives of all major classes of assets are as follows:

Split Interest Agreements

Accounting standards require that the following instruments be recorded as contributions and assets at the present value of the Mission's ultimate interest.

Beneficial interest in trusts: Donors have established and funded trusts naming outside fiscal agents to invest and manage the trust assets in perpetuity. The Mission, each year, will receive a pro-rata share of income from the trust assets in perpetuity.

Public Support

The Mission receives public support in the form of cash contributions, unconditional promises to give, bequests, non-cash gifts of securities, real estate, gifts-in-kind and donated services. The Mission generally recognizes public support in the year contributed at fair value, with gifts-in-kind determined as follows:

Gifts-in-kind: primarily includes donated food, clothing and other assets. The value of donated food and clothing is recognized as public support with a corresponding expense for program services when consumed at an estimated value of \$2.26 per meal served and \$3.50 (effective January 2008) per article of clothing provided. Excess clothing distributed to other non-profit agencies is valued at \$3.70 (effective January 2008) per pound. Management believes these estimated values for donated food and clothing are conservative based on cost and value studies performed. Other assets donated are recorded at estimated fair value on the date received.

Donated Services: generally not recognized unless the services:

- a. create or enhance a non-financial asset (such as a building), or
- b. are specialized skills provided by entities or persons possessing those skills (such as physicians or accountants) and would be purchased if they were not donated.

Contributions are recognized when the donor makes a promise to give to the Mission that is, in substance, unconditional. Amounts scheduled to be received in excess of one year are recorded at estimated present value, by discounting the future cash flows using an interest rate that corresponds with the term of each promise to give.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

The Mission (including, for tax purposes, Affiliates) is a non-profit corporation that has qualified for tax-exempt status under Section 501(c)(3) of the Internal Revenue Code and is not a private foundation. Accordingly, no provision for income taxes is included in the accompanying consolidated financial statements.

The Mission follows Financial Accounting Standards Board Accounting Standards Codification guidance which clarifies the accounting for uncertainty in income taxes recognized in an entity's financial statements. This guidance prescribes a minimum probability threshold that a tax position must meet before a financial statement benefit is recognized. The minimum threshold is defined as a tax position that is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. The Mission has no tax penalties or interest reported in the accompanying consolidated financial statements. The Mission had no uncertain tax positions at September 30, 2016 or 2015. Tax years that remain open for examination include years ended September 30, 2013 through September 30, 2016.

Functional Allocation of Expenses

“Total expenses” reported in the accompanying consolidated statements of functional expenses include expenses directly attributable to specific programs and services, and certain other expenses that are allocated to reflect management's estimates of the benefits realized by the applicable programs and supporting services.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates used by management in preparing these consolidated financial statements primarily relate to those assumed in establishing the value of gifts-in-kind, donated services, and the allocation of functional expenses. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Mission evaluated subsequent events through December 30, 2016, when these consolidated financial statements were available to be issued. The Mission is not aware of any significant events that occurred subsequent to the consolidated statement of financial position date but prior to the filing of this report that would have a material impact on the consolidated financial statements.

NOTE 2 – FAIR VALUE MEASUREMENTS

The Mission has established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under generally accepted accounting principles are described below:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

- Level 2 inputs to the valuation methodology include: 1) quoted prices for similar assets or liabilities in active markets, 2) quoted prices for identical or similar assets or liabilities in inactive markets, 3) inputs other than quoted prices that are observable for the asset or liability, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in methodologies used at September 30, 2016 and 2015.

The following is a description of the valuation methodologies used for asset measurements at fair value at September 30, 2016 and 2015:

Certificate of deposit – Valued at cost plus accrued interest, which approximates market value.

Beneficial interest in trusts – Valued using information obtained from third party sources, including financial statements and other information from detailed listing of holdings from the trusts. These valuations are typically performed annually, based on the present value of the estimated future distributions the Mission expects to receive over the term of the trusts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Mission's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

NOTE 5 – BENEFICIAL INTEREST IN TRUSTS

A donor has established a trust held by a third party naming the Mission as one of the beneficiaries to a perpetual trust. Under terms of the split-interest agreement, the Mission is to receive 10% of investment return annually. The asset of approximately \$110,000 is considered permanently restricted. This valuation is based on 10% of the fair value of the trust, which currently approximates the fair value of amounts to be received under the trust. The Mission received annual income from such trust of approximately \$2,000 and \$4,000, respectively, for the years ended September 30, 2016 and 2015. Such amount is included in unrestricted contributions in the accompanying consolidated statements of activities.

A donor has established a trust held by a third party naming the Mission as one of the beneficiaries to a perpetual trust. Under terms of the split-interest agreement, the Mission is to receive 25% of the net income annually until the demise of the lead beneficiary, at which time, the Mission is to receive 50% of the net income. The asset of approximately \$310,000 is considered permanently restricted. This valuation is based on 25% of the fair value of the trust, which currently approximates the fair value of amounts to be received under the trust. The Mission received annual income from such trust of approximately \$35,000 and \$33,000, respectively, for the years ended September 30, 2016 and 2015. Such amount is included in unrestricted contributions in the accompanying consolidated statements of activities.

As discussed in Note 2, beneficial interest in trusts is considered to be Level 3 investments.

As a result, the amount of support from bequests may vary significantly between years. Bequests received during the years ended September 30, 2016 and 2015 totaled \$244,949 and \$268,127, respectively.

The Mission’s policy is to utilize amounts received from bequests for repayment of debt, capital additions, endowments and other long-range planning purposes. Support from bequests is not intended to be utilized for day-to-day operations, unless deemed necessary by management.

Effective April 2014, the Mission provides a base contribution of three percent of gross salary to every employee's retirement account. In addition, the Mission matches 50% of participating employee contributions on the first six percent of an employee's contributions. All eligible employees who elect to participate make contributions to the Retirement Plan through payroll deductions. The Mission recognized expense of \$149,104 and \$143,578 during the years ended September 30, 2016 and 2015, respectively, for base and matching contributions to the Retirement Plan.
